Senior Technician (Molecular Biology/Diagnostics) – Munich/Martinsried [MT04]

Exosome Diagnostics is currently expanding our activities and laboratories in the IZB in Martinsried. We are looking for a Senior Technician to join our team in development of biofluid based molecular diagnostics. As we are a growing, dynamic company you are expected to fill diverse tasks and responsibilities during your varied work day. The self-motivated candidate will support us with extensive experience in molecular biology techniques.

Key responsibilities of the position:
- Molecular biology laboratory work to support product development and customer service projects.
- Assay development in biofluid molecular diagnostics.
- Processing clinical samples such as serum, plasma and urine.
- Reporting and documentation of results and progress to colleagues.
- Compiling of internal and external presentations
- Following and developing QA work routines and SOPs in a GLP environment.

Qualification and experience:
- Relevant education e.g. as Technical Assistant, BSc or Dipl.-Ing.
- 5+ years of working experience from a Molecular Biology Laboratory.
- Experience from industry or clinical laboratory (with QA regulation and documentation).
- Experience with a variety of molecular biology techniques including nucleic acid extraction, amplification (including RT-qPCR), sequencing and detection.
- Self-motivated and know how to prioritize and schedule your own workday.
- Systematic, meticulous and well organized.
- Familiar with MS Office and an experienced computer user.
- Comfortable with English in both speech and writing to allow close communication with colleagues, locally and at the company’s facility located in Boston, USA.
- Have high work ethics, high energy levels and a developed sense of humor.

We offer:
- A unique opportunity to be part of a growing young company developing a cutting edge new technology for molecular diagnostics in personalized medicine.
- A responsible position with the opportunity to have influence and freedom to organize your own work.
- A dynamic working environment in a growing company with many opportunities for personal and professional development.
- An attractive location in the IZB campus in Martinsried near Munich.

At Exosome Diagnostics, we foster a dynamic, entrepreneurial approach to translating cutting edge science into real clinical products to benefit patients and doctors. Exosome Diagnostics is a young company, validating and launching a powerful new diagnostic technology, offering the potential for significant corporate growth and enhanced career development. We encourage honest exchange of ideas and a culture of collaboration within the company to help the exceptional people who works here excel and to reach company goals.
