

**Engineering  
the Medicines  
of Tomorrow**

MorphoSys's mission is to make exceptional, innovative biopharmaceuticals to improve the lives of patients suffering from serious diseases. Innovative technologies and smart development strategies are central to our approach. Success is created by our people, who focus on excellence in all they do, collaborate closely across disciplines. We all are driven by a desire to make the medicines of tomorrow a reality. Guided by mutual respect and trust, each member of the MorphoSys team is given the opportunity to develop and flourish within this exciting and inspiring environment. Join us in Planegg near Munich!

We would like to fill the following vacancy as soon as possible:

## Deputy Head of Quality Control (gn)

### Your Responsibilities:

- Support of process validation and compilation of BLA and MAA during launch phase
- Support of implementation and maintenance of commercial SOPs and respective adaptation of the MorphoSys quality management system
- Implementation and supervision of QC related procedures and activities for the commercial manufacturing process
- Evaluation of external QC related documents like test records, CoAs, batch records, APR / PQRs
- Life cycle management for test instructions, stability protocols / reports, validation protocols / reports, reference standard (re-) qualifications
- Development and maintenance of administrative tools for the supervision of external QC activities
- Handling of deviations, changes, and OOX procedures
- Participation in internal and external cross-disciplinary teams as responsible person for commercial QC

### Your Requirements:

- Degree in Life Sciences, Pharmacy or Bioengineering
- Solid understanding of GMP principles and regulatory requirements
- At least 5-8 years of experience in biotechnology or pharmaceutical industry with a minimum of 3 years of pertinent experience in the field of quality control
- Experience in commercial QC life cycle management, preferably of biologics / therapeutic antibodies
- Clear commitment to work in the highly regulated area of pharmaceutical manufacturing and to represent QC in cross-disciplinary working groups
- Highly motivated and open-minded team player with well-developed interpersonal abilities
- Excellent communication skills, both in English and German

### We offer:

- Creative working in X-functional teams
- Open and respectful corporate culture
- Multicultural environment
- Working in an attractive, state-of-the-art building with in-house restaurant
- Free sports and language courses
