

A photograph of a woman and a man in a professional setting. The woman, on the left, has blonde hair and is wearing a dark blue blazer over a white shirt. She is smiling and looking at a blue folder held by the man. The man, on the right, has dark hair and is wearing a white lab coat over a white shirt and a grey tie. He is also smiling and looking at the folder. The background is a bright, out-of-focus indoor space, possibly a laboratory or office.

Engineering the Medicines of Tomorrow

MorphoSys's mission is to make exceptional, innovative biopharmaceuticals to improve the lives of patients suffering from serious diseases. Innovative technologies and smart development strategies are central to our approach. Success is created by our people, who focus on excellence in all they do, collaborate closely across disciplines. We all are driven by a desire to make the medicines of tomorrow a reality. Guided by mutual respect and trust, each member of the MorphoSys team is given the opportunity to develop and flourish within this exciting and inspiring environment. Join us in Planegg near Munich!

We would like to fill the following vacancy as soon as possible:

Manager Quality Control (gn)

Your Responsibilities:

- Evaluation of external QC related documents (batch records, test instructions, stability protocols / reports, validation protocols / reports)
- Coordination of non-GMP and GMP compliant analytical studies in the context of CQA assessments as well as for process characterization and process validation
- Evaluation of analytical data and compilation of assessment reports
- Development and maintenance of administrative tools for the supervision of external QC activities (e. g. stability and release data bases, reference standard inventories)
- Handling of deviations, changes, and OOX procedures
- Contribution to QC related regulatory documentation
- Coordination of internal and external trouble-shooting activities
- Close interaction with internal and external project teams as representative for QC

Your Requirements:

- Degree in Life Sciences, Pharmacy, Chemical Engineering or Bioengineering
- Experience in instrumental analytics
- Proven track record in biotech or pharmaceutical industry
- Solid understanding of GMP principles and regulatory requirements
- Clear commitment to work in the highly regulated area of pharmaceutical development and to represent QC in cross-disciplinary working groups
- Highly motivated and open-minded team player with well-developed interpersonal abilities
- Excellent communication skills, both in English and German
- Sound knowledge of Microsoft Office applications

We offer:

- Creative working in X-functional teams
- Open and respectful corporate culture
- Multicultural environment
- Working in an attractive, state-of-the-art building with in-house restaurant
- Free sports and language courses

Thank you for your interest! We are looking forward to receiving your pertinent application documents.
