

Pieris Pharmaceuticals is a publicly traded biotechnology company (Nasdaq: PIRS) with operations in Germany and the United States, specializing in the discovery and development of anticalin-based drugs to address validated disease pathways individually and transformatively. Together with our partners, we carry out innovative research in the fields of immuno-oncology, respiratory diseases and ophthalmology. Pieris' proprietary Anticalin proteins are a novel class of drugs validated by clinical trials and partnerships with leading pharmaceutical companies.

To strengthen our team, we are looking for an experienced

(Senior) Technical Assistant (m/f/d), Display Technologies – (located in Freising, Germany)

Your Tasks:

- Planning, performing, evaluation and documentation of experiments
- Selections of Anticalin proteins and antibody-fragments using yeast display technology applying FACS-Sorting based methods
- Applying molecular biology techniques for library construction
- Design and perform assays to screen for desired characteristics and activities of Anticalin proteins/antibody-fragments
- Communication and scientific exchange within internal project meetings

Our Requirements:

- BTA/CTA/MTA, B.Sc. or M.Sc. degree in biological sciences or related life science field with 2 + years of relevant work experience
- Experience in bacteria, yeast and mammalian culture
- Experience with FACS sorting is highly desired
- Molecular biology skills including PCR, DNA/RNA isolation, cloning
- Experience with yeast or other display library high-throughput binding assays (ELISA, flow cytometry) is preferable
- Work independently and collaboratively
- Proven team player, self-sufficient and communicative appearance
- Willingness to approach and learn new methods and techniques

We are a fast-growing biotechnology company with approximately 120 employees at our sites in Freising (Greater Munich Area) and Boston (USA). We work in flat hierarchies with short decision-making paths and offer a working environment characterized by cooperation and innovation. Each of our employees participates in a bonus program based on the achievement of individual and company-wide goals. In addition, we offer each employee the opportunity

to participate in a stock savings plan and a stock option program that allows employees to benefit directly from the company's success.

Numerous social benefits such as additional employer-financed company health insurance, free drinks, fruit baskets etc. as well as a bright, friendly and ultra-modern working environment with excellent technical equipment in our new company building in Hallbergmoos (from January 2020) round off our overall package. Creative employee events take place several times a year, as team spirit is essential for us. The joint creation of an innovative and participative corporate culture is an important concern for us.

We look forward to receiving your application via www.pieris.com/careers.
