

Evotec is a leader in the discovery and development of novel small molecule drugs with operational sites in Europe and the US. The Company has built substantial drug discovery expertise and an industrialized platform that can drive new innovative small molecule compounds into the clinic. In addition, Evotec has built a deep internal knowledge base in the treatment of diseases related to neuroscience, pain, and inflammation. Leveraging these skills and expertise the Company intends to deliver superior science-driven discovery alliances with pharmaceutical and biotechnology companies.

At our site in Munich, we have established a unique technology platform, which applies mass spectrometry-based proteomics to identify cellular drug targets, investigate the mode-of-action of small molecules and enable target and biomarker discovery.

To support our Chemical Biology team in Munich we are looking for a highly motivated

Research Associate (f/m/d) – Chemical Biology
Full time and temporary (2 years)

Your Key Responsibilities

- Plan and conduct proteomic experiments to validate small molecule targets and define drug's mechanism of action
- Interface with client project managers or other customer representatives and presents your results in meetings
- Participate in interdisciplinary teams alongside colleagues and scientists from customers to actively contribute to integrated projects

Your Qualifications

- PhD degree in biology, biochemistry or related subject
- Sound experience in biochemical technologies and cell culture
- Experience in mass spectrometry based proteomics is desirable but not required
- High level of motivation, initiative and flexibility
- Team and customer orientated mindset
- Strong communication skills and high standard of written work
- Fluent in German and English

Our offer

- A position within a vigorous and exciting professional environment promoted by an open culture and a spirit of community
- Opportunity to take high responsibility tasks, quick decision-making and flat hierarchies
- Flexible working hours, and a modern workplace
- Capital-forming benefits, holiday pay and annual bonus payment depending on performance

To apply, please go to our career page (<https://www.evotec.com/en/career>) and provide your application documents for the **Job-Req 02012** (CV and cover letter including earliest possible start date and salary requirements). We are curious to getting to know you and are looking forward to your application.
