

Pieris Pharmaceuticals (Nasdaq: PIRS) is a publicly-traded, clinical-stage biotechnology company with operations in Germany and the United States. Pieris specializes in the discovery and development of Anticalin® protein-based drugs to target validated disease pathways in a unique and transformative way. Our pipeline includes inhalable Anticalin proteins to treat respiratory diseases, immuno-oncology multi-specifics tailored for the tumor microenvironment, and a half-life-optimized Anticalin protein to treat anemia. Proprietary to Pieris, Anticalin proteins are a novel class of therapeutics validated in the clinic and by partnerships with leading pharmaceutical companies.
