

ITM Oncologics GmbH

ITM Oncologics GmbH is a subsidiary of ITM Isotopen Technologien München AG, a privately held group of companies dedicated to the development, production and global supply of innovative diagnostic and therapeutic radionuclides and radiopharmaceuticals. We are developing a proprietary portfolio and growing pipeline of targeted treatments in various stages of clinical development addressing a range of cancers such as neuroendocrine cancers or bone metastases. Our main objectives are to significantly improve outcomes and quality of life for cancer patients while at the same time reducing side-effects and improving health economics through a new generation of Targeted Radionuclide Therapies in Precision Oncology. The headquarters are directly located in the heart of the research center of the Technical University of Munich (TUM).

We would like to fill the following vacancy as soon as possible:

Clinical Trial Manager (f/m/d)

Your Role:

- Monitoring and ensure proper study performance in accordance with GCP, internal SOPs and other applicable regulations
- Coordination and control of the study timelines and ensure on-time study conduct
- Development / Co-development, review and approval of study documentation (Study protocols and amendments, IB, Patient consent forms, case report forms, study manuals and study tools)
- Preparation of and participation in Scientific Advice Meetings with Health Authorities
- Coordination and oversight of CRO`s
- Participate in the ongoing and final review of study data and assessment of the impact of the data to the clinical development program
- Support logistics of the trial

Your Profile:

- Graduation from a German or foreign institution of higher education (University level) preferably in Life Science, Chemistry, Biology or Pharmacy
- Several years of professional experience in clinical research and the management of (international) clinical trials
- Sound knowledge of FDA, EMA and ICH / GCP regulations and guidelines
- Solid background in oncology and strong interest in new therapies
- Independent, communicative, proactive, goal-oriented and reliable work approach
- Fluent in German and English, both written and spoken
- Willingness to travel internationally

What we offer:

- A modern workplace and exciting opportunities in the development of technologies with a secure future
- Cross-border intercultural cooperation and short communication channels
- A collegial corporate culture
- An attractive salary package and diverse corporate benefits

Applications are accepted either in German or English language.

Does this sound like you? Are you interested in shaping the future of ITM and joining one of our highly committed teams in an innovative work environment?

Send us your detailed CV including earliest start date and salary expectations.
