

Evotec is a leader in the discovery and development of novel small molecule drugs with operational sites in Europe and the US. The Company has built substantial drug discovery expertise and an industrialized platform that can drive new innovative small molecule compounds into the clinic. In addition, Evotec has built a deep internal knowledge base in the treatment of diseases related to neuroscience, pain, and inflammation. Leveraging these skills and expertise the Company intends to deliver superior science-driven discovery alliances with pharmaceutical and biotechnology companies.

At our site in Martinsried/München we have established a unique technology platform which applies mass spectrometry-based proteomics to identify cellular drug targets, investigate the mode-of-action of small molecules and enable target and biomarker discovery.

To support our Chemical Biology team in München we are looking for a highly motivated

## **Research Scientist (f/m/d) – Chemical Biology**

Full-time and permanent

### **Your key responsibilities include**

- Plan, conduct and analyse proteomic experiments to identify small molecule targets, drug's mechanism of action, and biomarkers
- Interface with client project managers or other customer representatives, and present your results in meetings
- Participate in interdisciplinary teams alongside colleagues from Evotec, and scientists from customers to actively contribute to integrated projects

### **Your ideal qualification**

- PhD degree in biology or biochemistry
- Sound experience in basic biochemical technologies, with expertise in binding assays, affinity determinations, immunobiochemistry, and chemical proteomics
- Substantial expertise in cell culture
- Experience in mass spectrometry based proteomics is desirable but not required
- Experience in working with international customers of the pharma and biotech industry
- Team and customer orientated mindset
- Strong communication skills and high standard of written work
- Fluent in German and English

### **Our offer**

- A position within a vigorous and exciting professional environment promoted by an open culture and a spirit of community
- Opportunity to take high responsibility tasks, quick decision-making and flat hierarchies

- Flexible working hours Capital-forming benefits, holiday pay and annual bonus payment depending on performance

We are curious to getting to know you and are looking forward to your application. To apply, please upload your detailed application (cover letter, CV, certificates) with details of your availability and salary expectations, directly on our career page at <https://www.evotec.com/de/career> for **Job-Req 02450**.
