

### **Manager Quality Control *in vivo* (f/m/d)**

Would you like to build up a new division of our quality organization? Are you familiar with all aspects of *in vivo* studies and would like to set them up with your own team? Then we are looking for you.

### **Join our transformative journey**

At Bavarian Nordic, we aspire to save and improve lives by developing innovative vaccines that are designed to unlock the power of the immune system. We are a global leader in smallpox vaccines and our commercial product portfolio contains market-leading vaccines against rabies and tick-borne encephalitis as well as an Ebola vaccine, licensed to Janssen.

We have embarked upon a truly transformative journey towards becoming one of the largest pure play vaccine companies by excelling in R&D innovation, manufacturing and commercialization, and are looking for more talent to help drive the change. Come on board our journey and let's change more lives, together.

### **Lead our new *in vivo* studies team and become an integral part of the growing QC department in Martinsried/ Munich!**

The local QC department consists of about 45 colleagues who, together with a team situated in Denmark, form an important part of our quality organization. With your team you will operate a BSL-3\*\* animal facility and release *in vivo* tested vaccine products. In this function you will report to our Senior Director of Quality Control.

Due to a growing product portfolio that revolves around vaccines, you will also get the chance to introduce new methods into the department, contribute to an effective organization as well as represent the company towards authorities.

### **Your responsibilities include:**

- Responsible for the supervision and overall management of *in vivo* QC personnel and a BSL-3\*\* animal facility (mice)
- Set up and lead your own *in vivo* team of app. 15 employees (scientists, technicians and animal caretakers) within the QC department
- Plan, supervise and manage all quality control experiments for the *in vivo* release of vaccine products
- Transfer of new methods from an external partner and implementation into routine testing
- Maintain GLP/GMP quality standard
- Host inspections and audits
- Communication with authorities

### **About you**

#### **Your qualifications**

- Post-graduate (PhD) academic education in bio/life sciences and several years of work experience, including staff responsibility

- Hands-on experience in coordination, supervision and documentation of in vivo studies
- Several years of experience with quality standards - GLP/ GMP
- Knowledge of German animal welfare law and requirements, experience with animal applications
- Excellent written and spoken command of English language
- Flexible and proactive working style, ability to meet deadlines as well as enjoying being part of a team-oriented company culture

### **We offer**

A chance to work in an international company with unique technology and a dedicated work force. We offer a dynamic work environment and an opportunity to develop both your personal and academic competencies.

A chance to be a part of an international team with a strong work ethic but also a focus on a respectful and comfortable work environment.

### **Caught your interest?**

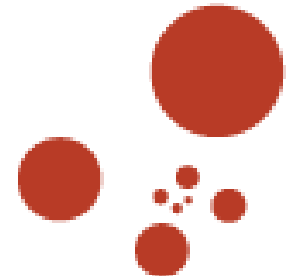

If you are interested in the position, we look forward to receiving your application in English with **your annual salary expectations and your earliest possible start date** via our online application system. Just click here [APPLY](#) and you will be redirected to our application site.
